THE ERIE RAILWAY CAMPAIGN. The motions to punish the Directors of the Erie Kallroad for their disobedience to the injunction in he suit of Schell agt. The Eric Railway Company was before the Supreme Court yesterday. The injunction trained the Directors from issuing new stock. The elegation is that the Executive Committee issued \$10,00,000 of new stock, and the Directors confirmed the rosue. The Directors who have previously appeared, were Messrs. Lane, Diven, Skidmore, and Davis, to these Mr. Thompson was added yesterday, he appearing by Mr. Daddey Field, and being admitted, like the others who have appeared, to bail in \$100. There are thus but titree left unserved over whom hangs the threat of Judge Barmard, that \$500,000 bail will be required of them. Those are Mr. Ediridge, Mr. Fisk, and Mr. Gonid. When the case was called up it appeared that both parties had been resiforced. With Messrs. Rapallo, Champhin, and Fullerton, who have previously been in the case, was Henry E. Davies, late Presiding Judge of the Court of Appeals, while the Drew side had added Messrs. Brady, Pierrepont, and C. N. Potter to Messrs. Field and Eaton. Mr. Rapallo, in moving the case, asked that a referred Mr. Rapallo, in moving the case, asked that a referred should becappointed to take proof in the matter. Issues had been traised by the interrogatories, and by the answers of the atmehed parties, and those issues should be referred. Mr. Field and Mr. Pierrepont opposed a referreferred. Mr. Field and Mr. Pierrepont opposed a referreferred. Mr. Field and Mr. Pierrepont opposed a referreferred to the interrogatories and answers filed. Mr. Davies argued that the Court of Appeals had decided that the same that the Court should a least hear the interrogatories and answers in see if such an issue was raised. A commencement of reading the interrogatories and answers man and answers to see if such an issue was raised. A commencement of reading the interrogatories and answers was made, but they being very voluminous, by a kind of facit consent, it was agreed that there should be a reference, but merely to take the testimony. Judge Baroard nominated John R. Haskin, stalling that, though he had selected exJudge Leonard as referee in the main motion, he did not consider it right to send before him this matter. Mr. Brady ha on is that the Executive Committee issued \$10,so,000 of new stock, and the Directors confirmed the

The motion for the dissolution of the Bloodgood injunction was then called up, but Mr. Field objecting that the atter was before Judge Cardozo, the motion was not essed before Judge Barnard. Indige Cardozo, when the matter was before him, deed that it should go before some other Judge, owing to be engagements and his personal unwillingness to be me engaged in the matter, but after some discussion a matter was adjourned to Monday next.

THE SHERRY WINE CASE-SUMMING UP FOR THE GOVERNMENT.

In the U. S. District Court, yesterday, Wm. G. Choate, esq., of counsel for the Government in the sherry wine case, which has been three weeks on trial, commenced summing up. He said that the case was a very simple one, lavolving only two questions, namely: whether the wine in this case was invoiced at less than its market value, and, if it was, whether it was done knowingly, with intent to defraud the revenue. The defense had needlessly complicated the case by making other issues, attacking the Revenue laws, and trying to excite prejudice against those laws. They have evaded the main issues of the case as much as possible. Counsel for the defense has not hesitated, in his professional capacity, to appeal to you against the laws framed by Congress at the commencement of this Government and continued in force ever since, and which have thus been sanctioned by long experience. You do not consider yourselves wiser than Congress, and even if you were, you must, in considering this case, simply pass upon the facts, according to your oaths, and say whether these laws have been violated. The cry raised by the defense of "Informers!" "Spies." Ac., is merely raised to play upon your prejudices. Most of the revenue laws contemplate the necessity of providing for the reward of those on whose information scizures of property are made. The Revenue laws would otherwise be practically inoperative. The prosecution of offenders against the Revenue laws rosts in other hands, the informer being a mere auxiliary. The Government trusts foreign merchants to make up their own invoices, relying on their honer, In the U. S. In July, 1866, Samuel Baker, as master of the British bark Vivian, entered into a charter party in this city with James E. Ward and others for the charter of the vessel to the latter, for a voyage from this city to Havana for \$2,900 in gold, payable on the discharge of the carge in Havana. Eaker subsequently commenced suit against Ward, alleging that only \$2,201.50 has been paid, and that \$1,005.84, the equivalent of \$098.50 in gold at the commencement of the suit, is still due. The respondents answered that they were induced to enter into the charter party by the false representations of Haker as to the capacity of the vessel, he saying that she would carry 3,000 bbls, of oil, when in fact her capacity was only 2,600 bbls, to their damage, as she did not take all the oil they wanted to ship; and they claimed that the charter party was consequently void. The Court (United State District) decided that the charter party did not state the carrying capacity of the vessel, and ordered a decree for Baker for \$608.56, with interest and the costs of the suit; the Court held that the legal-tender acts are constitutional and valid, both on principle and on authority, and that the words "hawful money." The decree must be for the amount of dollars specified, and can be satisfied in any money that is lawful and a legal tender.

In the City Court, Brooklyn, before Judge Thompson, in the suit of John Shannon, by his guardian, agt. Edward J. Lowber and another, the Court took the case from the jury, on account of a premature expression of opinion, and granted leave to plaintiff to move for a new trial. The suit was for damages for injuries sustained by plaintiff, who was hurt by a large cast-iron drum, placed by defendants on the sidewalk in front of their distillery on Second-st., E. D., and which fell on him. The boy was playing marbles on the sidewalk, and, one of them having gone in behind the drum, the accident occurred while he was endeavoring to get it out.

MONDAY, March 28-P. M. Gold closed at 1384. The range of the day was 1394 @1381. The clearings of the Gold Exchange Bank were \$49,221,000, and the balances, \$1,756,489.

Governments opened steady, but after the bank meeting were offered at a decline of 1@? per cent. In State stocks and railway bonds little done, but prices were fairly sustained. Railroad shares opened firm, and in several cases sold at a material advance. The registered sales were small, and business throughout the day was limited. Cleveland, Painesville and Ashtabula stock sold at 99j, and Cleveland and Toledo at 1041@1041. As the roads are in reality one, this difference in the price of its parts is remarkable. After the 1 o'clock Board there was a sharp decline in New-York Central, which sold at 1211. Erie was lower, selling at 70%. Reading continues weak and pressed for sale. 70%. Reading continues weak and pressed for sale. The Western shares were lower, but were not freely offered at the decline. Michigan Southern sold at 87%, but rallied to 87%. After the Board the market improved on Erie, which sold at 71. New-York Central was heavy and freely offered. Reading was weak. The Western list was all firm. Government bonds close excited and irregular, with a moderate demand to purchase at the low rates made at the Board. The closing condations were:

Over three-fourths of the stockholders of Michigan-Southern road have united in a request to the present managers to continue in charge of its affairs another year. At the general meeting of the City Banks to-day, the proposition to take \$10,000,000 of three per cent certificates, payable by the Government in legaltender, was rejected by 36 to 18. The banks did not feel in need of relief, carrying as they do \$13,800,000 reserve above the legal amount. The party needing relief is the Treasury of the United States, and at no distant day will be urging Congress to give it new supplies of legal-tender with which to meet its currency obligations. In May, it has \$20,000,000 to \$25,000,000 of compound notes falling due, for which their holders in a 7 per cent money market, are almost certain to demand money, and not three per cent certificates under the act of March 2, 1867. There are now \$25,000,000 of these certificates in use, and under a stringent market they may be sent in for payment. In June and July the 7.30s fall due, and will be paid to some extent in money. The failure of the banks to ask for relief, of which they did not feel the necessity, produced a disposition to sell Government and other stocks.

MH.CH COWS—There is no marked change in the Cow trade. Milk has been scarce and high in the City during the past week, which has caused quite an inquiry for fresh cows, but the bulk of those sent in are poor, and have to be sold at \$60\$*75. Good cows are in much the best demand, and are worth \$60\$*290 each, with the best picked out at \$100, two selling to-day for \$200, but they were large, in good flesh, and had fine milking points. But for the scarcity of beef cattle, milch cows would go slowly this week. As it is, they are not over active. VEAL CALVES.—The demand for good yeals calls for all that are coming forward, and prices are firmer, not withstanding the increased number of dressed calves sent to market, and the larger supply of live calves. The scarcity of beef helps the sale of yeal. Many of the little hobs still come to market, but a large proportion of them are sent in dressed. Prime live calves are worth 13c., with a few selling at 134c. From these prices they run down to lown to for a common to medium, below which they are generally sold by the head.

Receipts this week, 14,773. Prime sheep, 9204c.; non-to-fair, 7.284c. Several lots of extras have old at 10c, with one lot at 104c. The late mouto fair, 7.284c. Several lots of extras have been soid at 10c. with one lot at 104c. The interruption to travel, caused by the heavy freshets and breaking up of rivers, added to the inclination to keep stock back for the fleeces, led to hare markets during the middle of the week, barely 10c head coming in for Wednesday and Thursday. Of course prices ran up, and dealers, and outchers not only run into the country for stock, but sent relegrams shead of each other to secure what was on the way. To-shay with 19 cars at Fortiethst. 7 cars at Hudson City and 6 cars at Communipaw, or about 6.800 head, all told, there is not much weakness in the market, all selling at the following rates: At Fortieth-st. Hume & Elliott soid 359 Ill. sheep, 84 %, at 34c. 14 State, 20 %, 24c. 120 Canada, 130 %, 10c., and 183 State, 126 %, at 104c. These last were brought in by W. Coon from Oricans County, where they were fed by E. J. Potter. When put in the feeding peus last Fall they weighed 106 10, and now turning out 126 % shows a gain of \$2 10 each, or more than many a thin lot of little

To keep pace with the advance in beef and mutton, live hogs have gone up ic., though the receipts are larger.
